

# CONDOR PRICE HUB INFRASTRUCTURE

## CONDOR PRICE HUB

The Price Hub is robust pricing and hedging engine that enables retail and institutional brokers, as well as crypto-exchanges, to deliver the best possible trading experience to their customers.

## PRICING & HEDGING ENGINE

The Price Hub is a single point historical data storage for aggregation, hedging, mapping of symbols, synthetic instruments, risk parameters, performance analytics by connecting to API, supporting trading on over 10,000 trading instruments, and 24/7 technical support.

## MULTIPLE LIQUIDITY PROVIDERS

The Price Hub platform supports different feeds through plugins, including PrimeXM, OneZero, Celera, GCEX, and other bank liquidity.
