**We Bring Continuous Innovation Through Proprietary Software & Business Solutions to Over-the-Counter Online Brokers and Cryptocurrency Market Participants.**

## THE TECHNOLOGY

This partner proprietary technology provides access to seamless liquidity in the FX marketplace.

## FX MARKET CONNECT (FXMC)

FX Market Connect has active deployments of an FX aggregation capability developed with best-of-breed technology enabling order flow aggregation and a recent proven track record of trading success.

## THE COMPANY

### Introduction:

FDCTech, Inc. ("FDC") is a fintech company based in Irvine, California, with a full suite of FX and Crypto technology and business solutions. The Company's flagship product is the Condor FX Pro Trading platform, a fully customizable multi-asset trading platform for forex, crypto, stocks, and commodities. Mitchell Eaglstein and Imran Firoz founded the Company on January 21, 2016, so 90% of forex brokers who offer can offer a customized trading experience to their trading clients.

### Why We Exist:

Most brokerages's dependency on third-party software providers increases the potential for human and configuration errors. However, existing brokerages and new market entrants can now license or own FDC's technology infrastructure to better market and serve their unique customer base. advisory, and in some cases, turnkey projects to boost their sales, cut operating costs, seize business opportunities and anticipate regulatory and technological challenges.

## KEY PERSONNEL

## BACKGROUND ON FXMC

FXMC is a built-for-purpose entity that deploys complex, proprietary financial services industry technology and customized operational skills in providing a fully functioning FX aggregation portal and trading/operations capability to interact with retail, professional and institutional FX flow. The technology solution bridges the gap between retail, professional and institutional FX market participants.

**FXMC's proprietary pricing engine, leverages market intelligence to dynamically create efficiencies in electronic pricing to the full spectrum of FX clients.**

The FXMC solution has a potential to generate \$40 per million traded in firm revenue from the flow.

## VALUE PROPOSITION

- 1 **Take control of your client's access to liquidity and manage your client's liquidity requirements instead of just passing on what's given to you.**
- 2 **Engage vendors opportunistically and reduce costs on both sides.**
- 3 **Expand your electronic footprint faster than you can grow organically and leverage your own brand and distribution channels.**
- 4 **Provide turnkey access to comprehensive liquidity without migration hassles or competing on the basis of white label functionality.**
- 5 **No annual licensing fees or upfront costs for the Technology.**

## FXMC GIVES ACCESS TO -

**20+ BANK AND NON-BANK MARKET MAKERS**  
**10+ ELECTRONIC TRADING VENUES AND TECHNOLOGY COMPANIES**  
**5 ADDITIONAL ELECTRONIC TRADING VENUES IN PROGRESS**  
**FIRM LIQUIDITY**  
**LAST LOOK LIQUIDITY**

## FXMC SOLUTION MAP

## KEY FXMC SOLUTION HIGHLIGHTS

**FXMC is a 'deconstructed ECN' approach to today's market place.**

**Workflow and components are familiar and feel like an ECN, but run on the client's dedicated server.**

**The FIX adaptors, price engine, execution and clearing engines are at the heart of the technology offering.**

**The idea is to make more functionality available than any one client can realistically use, but offer it in such a way that client can expand use as required.**

**Licensing model is volume based with a \$/mo matrix that can be adjusted based on the clients daily volume. Potential of a startup fee for time configuring PE and hardware or capture the on boarding fee through an increased markup in brokerage.**

## **SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS**

---

Some of the statements made in this document constitute forward-looking statements. These statements relate to future financial and other performance or anticipated plans and are identified by words such as “may,” “will,” “would,” “should,” “expect,” “could,” “scheduled,” “plan,” “intend,” “anticipate,” “believe,” “estimate,” “potential,” “propose” and “continue” or negative variants of such terms. You should read these statements carefully because they discuss our future expectations and plans. We believe that it is important to communicate these expectations and plans to you; however, these statements are only estimates of future performance. Actual performance or events may not meet such expectations or estimates and may differ materially. In evaluating these forward-looking statements, you should consider various factors and uncertainties, including the factors discussed under “Risk Factors,” and any cautionary or qualifying statements and disclaimers made along with such forward-looking statements. Such factors may cause our actual results or events to differ materially from those expressed in the forward-looking statements made in this document. Although we believe that the expectations reflected in the forward-looking statements made herein are reasonable, we cannot and do not guarantee future results, levels of activity, performance or achievements.

Moreover, we do not assume any responsibility for the accuracy and completeness of such forward-looking statements in the future. We do not plan and, subject to applicable law, undertake no obligation to update any of the forward-looking statements made herein after the date of this document in order to conform such statements to our actual results.
